

Our Athlete Performances at the 18th Asian Games, 2018

We all hope that over the past fortnight, you were rooting for team India and athletes from the Rahul Dravid Athlete Mentorship Programme during the 18th Asian Games. In fact, it was the biggest contingent India has ever sent to the Games. A total of 572 athletes competed in 36 sporting disciplines across 2 weeks in Jakarta-Palembang. The Indian contingent also recorded their biggest medal haul at the Games, winning a total of 69 medals (15 Gold, 24 Silver, 30 Bronze).

The GoSports Foundation saw representation of 17 athletes from the Rahul Dravid Athlete Mentorship Programme in 8 sporting disciplines during the Games. Please find below a short brief on the athlete performances at the Games for your perusal:

SL.No	Athlete	Discipline	Results
1.	Swapna Barman	Heptathlon	Gold medal
2.	Dattu Bhokanal	Rowing, Men's Quadruple Sculls	Gold medal
3.	Muhammed Anas	Athletics (400m, 4x400m mixed relay, 4x400m men's relay)	Silver medals

16.	Ajay Singh	Weightlifting (77 Kg)	Finished 10th
17.	Sathish Kumar	Weightlifting (77 Kg)	Finished 5th

ROWING

Dushyant won his second successive bronze at the Games (above).

Rower Dushyant brought India its first rowing medal at the 18th Asian Games by finishing third with a timing of 7.18.76 to take home the bronze medal in the men's lightweight single sculls event. The 25-year-old fought high blood pressure and was so drained out after the event that he collapsed on the finish line. He was exhausted which made him unable to stand at the podium, and he had to be provided immediate medical attention. Seasoned rower Dattu Bhokanal also put behind the disappointment of finishing 6th in his individual men's heavyweight single sculls to win a gold in the men's quadruple sculls finals. The team comprising of the aptly-named Sawarn Singh, Dattu Bhokanal, Om Prakash

Dattu (second from right) celebrates with his team.

ATHLETICS

Swapna Barman (Heptathlon) - Gold medal. Swapna became the first Indian heptathlete to win a Gold medal at Asian Games. She also became only the 5th athlete to score 6000 or more points in the event. This victory was especially sweet for her as well as us, as Swapna has been struggling with severe back and knee injury since last year which had put her participation at the Games under severe doubt. Under the watchful eyes of our head of sports science Mr John Gloster, an injury rehabilitation programme was designed for her, with an army of specialists working with her over the past years. Physiotherapist Niranjan Pandit was also exclusively sent to Jakarta to look after her and it turned out to be a good decision

looking at Swapna's performance result. Niranjana was also handy in addressing other athletes' requirements, especially weightlifter Sathish Kumar who had a muscle tear during his event.

Muhammed Anas (Athletics, 400m, 4X400m Mixed Relay, 4X400m Relay) - 3 Silver Medals. After a scintillating performance at the Commonwealth Games 2018, Muhammed Anas picked up from where he left off to win 3 silver medals during the Asian Games. He definitely was one of the biggest success stories for India at the Games and is a good prospect for the upcoming Tokyo 2020 Olympics.

Anas was also on the team which won silver in the inaugural 4X400m Mixed Relay Event. (above)

TABLE TENNIS

Sathiyana G (Table Tennis, Men's Team) - Bronze Medal - The Indian table tennis men's team settled for a historic bronze at the Asian Games 2018 after losing to South Korea 3-0 in the semifinal.

G Sathiyana, Achanta Sharath Kamal and A Amalraj were part of the team which won their first ever Asian Games medal in table tennis.

Ms. Preeti Rabindra watches the closing ceremony with Hepta queen Swapna Barman

We were also delighted that Ms. Preeti Rabindra was able to visit Jakarta to support our athletes during the last few days of the Games. We will aim to provide similar opportunities in future competitions and hope to enable more representatives from the organisation to witness the performance of our athletes which would not have been possible without support from ASM Technologies.
